

ECHOPePP® - Fish packed, transparent and greaseproof!!

With ECHOPePP®, you have a transparent, greaseproof and waterproof pack for your fish, and this with a bag which consists 89% of glassine paper. The greaseproof and waterproof properties are achieved simply by laminating a micro-thin film to the glassine paper. The film is on the inside of the bag, and provides the barrier to fat and water. The crisp, premium glassine paper is transparent, and the contents of the bag - the fish - is visible through the packaging.

The fish can be heated in the packaging!

ECHOPePP® bags are microwavable. The bag can simply be placed with its contents, e.g. a smoked fish, for a few seconds in the microwave and heated. After heating, simply open the bag, and eat the fish direct from the bag.

ECHOPePP® is food safe!

ECHOPePP® is approved for direct food contact, and is heat resistant to 140°C. The appropriate certificates from an independent institute are available on request.

ECHOPePP bags: Transparent bleached 45g/m²
Dimensions 400 x 105 x 60mm
Quantity: 20

Transparent bleached 45g/m²
Dimensions 400 x 105 x 60mm
Quantity: box of 1,000
